

MEM13003B - WORK SAFELY WITH INDUSTRIAL CHEMICALS AND MATERIALS

Course Description

This unit covers the correct use of personal protective equipment (PPEs), the identification of hazards and emergency procedures, and the process for observing safe working practices in relation to working with industrial chemicals and materials.

Contents

- Use personal protective equipment (PPE)
- Emergency procedures including chemical spill and basic firefighting procedures.
- Hazard identification
- OHS/WHS legislation and requirements
- Material Safety Data Sheets (MSDS)
- Safe manual handling procedures.
- Chemical Storage
- Dangerous goods classification.

Entry Requirements

- There are no pre-requisites for this unit

RPL

Do you already have many of the skills that are being taught in this course? Transform Training recognises existing skills and prior learning through our Recognised Prior Learning (RPL) Program, because there is no need to learn what you already know. Talk to our staff about RPL today.

Delivery & Assessment

Training and assessment is conducted on site and is structured on a flexible basis to meet the needs of the organisation and students and includes classroom theory and practical on-job training. Assessment is competency based and will include a mixture of classroom based exercises and practical demonstration of skills.

Pathways

Successful assessment outcomes from this training will result in a Statement of Attainment; that may be used for recognition in a relevant qualification.

Materials and Equipment

Students will be provided with all written and physical materials required to complete the assessment. Students must wear long trousers and a long sleeve top.

More Info

Students should also refer to the Student information booklet and fee schedules for detailed information on Transform Training's policies and procedures including:

- Work, health and safety
- Fees and charges
- Refunds
- Grievances and disputes
